

# White Paper

for PugCoin(PUG)

and

PugNode(PUGN)

tokens

Version 01

Prepared by: Pavels Sirjevs

date: 14.06.2019

## Introduction.

**I proudly present you an ecosystem of tokens PugCoin and PugNode. PugCoin built on the Waves blockchain, favored by pugs worldwide. PugNode is also, as the name implies, a node I operate and maintain in order to support Turtle Network. I am took inspiration from the famous MillionDollarHomepage, Dogecoin and HellenicNode as well.**

### Details PugCoin:

Token name: PugCoin

Symbol: PUG

Decimals: 7

Total Supply: fixed amount of 1 million (99 million were burned)

Re-issuable: no

Asset ID: Hw8YYk6hD9MQowpdJzmtRTcPfb224xPCTGoQ9v6G8DxJ

Network Algorithm : Leased Proof of Stake (LPOS)

Issued by : Waves Platform

Issue date: 10.04.2019

### Details PugNode:

Token name: PugNode

Symbol: PUGN

Decimals: 2

Total Supply: fixed amount of 100 million

Re-issuable: no

Asset ID: 764NtwudtEyi6FKUsFEgafGFr2v5Ap87c1bGtKGeQqSg

Network Algorithm : Leased Proof of Stake (LPOS)

Issued by : TurtleNetwork

Issue date: 07.06.2019

## Pugcoin project

My name is Pavels Sirjevs (<https://www.linkedin.com/in/riga>). Allow me to describe the process of how this PugCoin project is able to succeed. In short, my revenue model is based on ad placements and content sharing. On website <https://pugcoin.net> you will be able to save an image of your choice with an URL attached to it pointing to your project or website. This way you can advertise yourself or your product, as well as support the development of the project.

A person who spends 1 USD per 1 pixel has the opportunity to receive the appropriate amount of PugCoin. That is, 1 PugCoin will always cost 1 USD per 1 pixel. Payment of a pixel occurs through the PayPal payment system directly to the token creator's wallet ([sirjevs.pavels@gmail.com](mailto:sirjevs.pavels@gmail.com)). The total number of pixels is one million. Therefore, when all the pixels are sold out, the result should be 1.000.000 USD. So that users can see that the amount is not spent, I created in the PayPal pool (<https://www.paypal.com/pools/c/8dgDxqlEYa>) where I will immediately transfer the received income from the pixel. This income will be used to further develop the PugCoin and PugNode ecosystems.

The person who bought the pixel will receive an e-mail, where I will indicate how and where he will be able to receive PugCoin as a reward for purchasing the pixel. He can later sell this PugCoin on the WavesDEX exchange or write his pug on the blockchain at <http://pugcoin.com>, which will be created in the future.

This website will work on decentralized application (Dapp) that focuses on protecting lost pets. For 1 PugCoin the owner of the dog can write it in the blockchain forever. Once located in the system, it confirms ownership by listing the owner and contact information, the pet's name, and their veterinarian. This specific Dapp could also provide higher security over an owner's information. Traditional databases and registries are vulnerable and can be breached, thus leaving a pet owner's personal information out in the open. But with a blockchain database and registry, the owner's information, as well as the pets', would be protected. Returned token to be burned. The total base of pugs will be 1.000.000 officially registered for life on the blockchain! Who loves his friend, take care of it! Unique opportunity!

Roadmap placed here: <https://pugcoin.blogspot.com/p/roadmap.html>

There are no risks to the user who received rewards for the Pugcoin token, since the user automatically places ads on the site for fiat and receives only benefit from this in the form of advertising himself or something.

## PugNode project

TurtleNetwork secures its network with a stake leasing protocol. Every node that has a balance of greater than 1000 \$TN has a chance to produce a block. PugNode is node running on the TurtleNetwork platform. PugNode has possibilities for smaller stakeholders to combine forces and help to secure the TurtleNetwork by leasing.

**Join my node by leasing your \$TN to this address and earn rewards**

**PugNode Leasing Address : 3JiRRSs4cx5USyyy2WMXUHcjktMaSLkEt15**

**Lease Alias: pugnode**

Rewards: 98% of the profits of the LPoS will be distributed proportional among the addresses that are doing monthly leasing. The remaining 2% will be distributed proportional among the holders of the PugNode token. I will deliver 10.000 PugNode to leasers that maintain their balance for minimum 1 month (snapshots will be taken). You can also get them by buying PugNode tokens in TurtleNetworkDEX.

Registration to get Pugnode Tokens:  
<https://forms.gle/HT9nRsrxMEq1SkU68>

### ***Another nice bonus from mining in the node PugNode:***

\*ExtraRewards: 5% from PayPal pool will be distributed proportional for holders who owned 100.000 PugNode from 01.10.2019 till 26.10.2019 (snapshots will be taken everyday in this period) \* if reach 1.000.000 USD

Each participant in the PugNode node leasing will regularly receive our PugNode tokens and take part in regular raffles of valuable prizes - in the form of winnings from various popular cryptocurrencies.

Leasing is completely safe , because the \$TN you lease do not leave your wallet and you may discontinue leasing at any time.
